Regional/Territorial Arctic Winter Games Trials

It has come to my attention that a number of trial participants will be coming to the trials without rifles. Although our selection policy requires that all athletes have their own equipment, including rifles, we will try to assist all who come without rifles.

We have collected a number of target rifles as follows:

- **Summer biathlon**
- **Bruno**
- **Single shot target rifles**

If we have enough rifles to go around i.e. one for each athlete then these will be drawn for.

If there is not enough rifles i.e. one for each athlete, then the pool of rifles will be positioned on the rifle racks by the firing line, and will be selected by the respective coach as the athlete approaches the range and return to the race immediately after use.

Athletes who have come with their own rifles will not be sharing same.

I hope this works for everyone; we look forward to seeing all at the Territorial Trials in Hay River.

**Pat Bobinski
President**
